On an NTA/Internal Rate of Return (IRR) basis, CD4 has achieved a return of 13.9% per annum since inception.

MONTHLY INVESTMENT ACTIVITY

During the month of November, the LP received a net distribution of approximately US\$5.2 million, following the successful realisation of J&K Ingredients, an underlying portfolio company of CORE Industrial Partners Fund I, L.P (CORE).

CORE acquired J&K Ingredients, a food and beverage manufacturer and supplier, in 2020. The company sets itself apart through its extensive custom formulation and new product development capabilities, offering a comprehensive range of speciality ingredients, including egg and milk replacements, emulsions, flavours and bread bases to the bakery market. The company was acquired by SK Capital Partners, LP, a private investment firm focused on specialty materials, ingredients and live sciences sectors.

During the month, the Responsible Entity (RE) was informed that the Advisory Board - established by the Investment Manager at the inception of the Fund - was dissolved. The Investment Manager had established an Advisory Board to provide it with expert advice, on a non-binding basis, in relation to portfolio and investment strategy, evaluation of investment opportunities, fund administration and other commercial matters for the LP and its limited partners, including the Fund. Given the life stage of the Fund, it has been determined that the Advisory Board is no longer required. The Investment Manager continues to engage the ongoing services of Jonathan Sinex, a Principal of Cordish Private Ventures, with the support of Jonathan Cordish.

Q1 2024 UNITHOLDER PRESENTATION

The RE is pleased to invite Unitholders to an in-person investor update in both Melbourne and Sydney in Q1 2024.

We are excited to be joined by Jonathan Sinex, Managing Director of Cordish Equity Partners for the presentation. During the session, Jonathan will talk through the Fund Series Q4 2023 update and investors will have the opportunity to ask questions of both the Investment Manager and K2.
